

## Series XMP

2,4 kW continous, 2,6 kW intermittent power flexibility

GPIB or RS-232 controlled  
19" x 5 1/4" (3 U high) mainframe with controller to accommodate up to 8 modules  
1/8, 2/8, and 3/8 width modules available ranging from 8 V to 160 V and 1.25 A to 80 A  
Individual module processor control  
Power envelope: 2.4 kW, 2.6 kW intermittent  
Power envelope monitoring and control  
Polarity and isolation relays  
Readback of voltage and current  
External synchronization  
Extensive DUT protection features  
Workpoint window warning  
Multichannel 10 store/recall locations  
99 steps auto sequencing  
Software-based calibration  
Local panel and keyboard  
Low ripple and noise  
Power Factor Correction (PFC), wide range mains operation

The Modular Power System (XMP 2600) is a multiple-output programmable DC power supply system. The system is an ideal solution for ATE applications.

A 19" x 5 1/4" (3U high) mainframe, the XMP includes a controller and can be configured with a selection of up to eight modules. For added flexibility, modules of different power ratings can be combined within the same XMP mainframe. The system automatically reconfigures itself when new modules are installed.

The modules come in a variety of sizes and power ratings: 1/8 width, ranging from 160 W to 720 W; 2/8 width, ranging from 640 W to 1.6 W; and 3/8 width high power modules ranging from 2.8 kW to 3.2 kW, limited by the XMP mainframe power envelope.

The XMP mainframe can be populated with modules having an overall power of several kW. Within the power envelope of the XMP mainframe, output power can be drawn from different modules at different times. No other single power system has this flexibility.

All XMP functions can be programmed through a GPIB (IEEE-488) or RS-232 interface, or manually commanded and monitored from the front panel for convenient hands-on operation. LabVIEW®, LabWindows/CVI®, TestPoint® and AtEasy® drivers are available for easy integration of these functions in a customized system. The XMP comes with a convenient virtual panel and tutorial software.

### General Specifications

AC Input	170 V-265 V	lin < 20 A nominal
	Nominal 120 V, Po < 1 kW	lin < 15 A nominal

\* Below the minimum specified input voltage range, consult factory for derating information.

Mains frequency	45 to 66 Hz
Power cord length	2 m
Power Factor Correction (PFC)	Power factor correction to meet EN61000-3-2 Current Harmonics and EN61000-3-3 Voltage Fluctuations (IEC555)
Inrush Current	Up to 100% of specified nominal current
Input Mains Protection	Circuit breaker switch on the front panel

### Environmental Conditions

Storage temperature	-20°C to 70°C
Operating temperature	0°C to 55°C (LCD to 50°C)
Derate output current/power	1% per °C from 30°C to 55°C

### Regulatory Approvals

European Standards:	Electromagnetic Emissions and Immunity - meets Council Directive 89/336/EEC
Electromagnetic Emissions:	EN61326: 1997 + A1: 1998
	EN61000-3-2: 2000
	EN61000-3-3: 1995
Electromagnetic Immunity:	EC61326: 1997 + A1: 1998

# Laborstromversorgungen

## Safety Agency Compliance

European Standards:

Safety

Meets EN61010-1

American Standards:

Electromagnetic Emissions

Safety

Meets FCC Class B

Meets UL61010-1

## Temperature Coefficient

Voltage Programming

0.01% per °C

Current Programming

0.02% per °C

Voltage Readback

0.01% per °C

Current Readback

0.02% per °C

Long Term Drift

Output change after 30 min. warm-up, over an interval of 8 hours under constant load, line and temperature conditions is 0.03%.

Remote Sensing

Up to 4 V can be dropped over the two load lines together

(i.e. 1.5 V + 2.5 V). At 2.5 V a warning event will be generated, alerting over sense voltage drop condition, and at 4V the module will be shut down.

The load lines drop subtracts from the voltage available for the load.

Output Programming Response Time Isolation

Rise and fall time with full resistive load (10 to 90% and 90 to 10%) is 30-640 mSec. Output terminals can be floated up to +/- 240 VDC from chassis ground

\* Data subject to change without notice.
